Ms. Simona Doboli, PhD
Associate Professor
Computer Science Department
Hofstra University
Hempstead, NY, 11549

Dear Professor Doboli,

InterSoft Associates, a software development firm located in Valley Stream NY, is offering full-time, part-time and internship programming positions.

InterSoft develops decision support and transaction-based applications using a wide range of technologies and architectures. These include thick client, thin client and n-tier applications in a web environment using database engines that include SQL Server and Oracle.

Successful candidates should have taken theoretical courses in Computer Science and possess strong analytical skills. Additionally they should possess a working knowledge of the following technologies:

- Object-oriented design and principles
- A working knowledge of relational database design and development
- Knowledge of an object-oriented programming language (e.g., Java, C# or Visual Basic).

We look forward to developing a strong relationship with Hofstra University.

Very truly yours,

Hy Goldstoff
